ORDER

23 Misc. 473 (LJL)

The United States of America moves to extend the deadline to initiate a civil or criminal forfeiture proceeding against certain properties identified in Exhibit A to this Order. Further, the United States has provided a stipulation from individuals who filed administrative claims to the properties and has shown that those administrative claimants have no objection to the requested extension of time. The United States has also shown good cause for the requested extension. Based on the United States' agreement with the administrative claimants and its showing of good cause, the motion is granted. The deadline for the United States to commence a judicial forfeiture action against each property item identified in Exhibit A is extended to and through February 29, 2024.

It is so ordered this 15 day of December 2023.

HONORABLE
United States District Judge
